FREE Solar Energy Educational Workshops

For Middle and High School Teachers

Offered at Your School

Special priority given to schools that have – or are planning for – solar PV systems

Global Learning is offering a limited number of these free workshops thanks to a grant from the **U.S. Department of Energy's Million Solar Roofs Program.**

A selected list of solar educational resources, sample lessons, solar kits, and New Jersey Department of Education Professional Development Credits will be provided.

We will negotiate a time frame that works for your school.

For more information, or to arrange a workshop, contact Global Learning at 732-528-0016 or email gljeff@verizon.net.

Global Learning is a non-profit educational organization that has been providing innovative resources and services to schools since 1974. Visit our web site at www.globallearningnj.org.

As the Supervisor of the Science Department at Toms River High School East, North and South, I have had the opportunity to work with Jeff Brown and Global Learning. Jeff provided an informative in-service program to my staff on solar energy and solar education. Along with that presentation was an extensive list of resources that many of the teachers attending have made use of.

Global Learning is an outstanding organization and I confidently recommend other schools take advantage of the wonderful programs offered.
